September 2022

Dear friends of Frontline Ministries,

In March 1994, we began Frontline Ministries, Inc., (FM) with the express goal of **making a Christian impact on our culture.**

Three years later, **we saw the need to prioritize Christian education** to accomplish the goals of Frontline, so we launched the Exodus Mandate Project under FM, which is celebrating 25 years of ministry this year. Today we see more Christian organizations coming to the same realization, and as a result, they are having significant influence. Many of these organizations have joined with our new Christian Education Initiative (CEI). One such group started by Dran Reese under The Salt & Light Council is Public School Exit which is helping families across the nation.

Over a year ago, Illinois Family Institute joined efforts with Public School Exit and hired a fulltime staff member with a **goal of starting Christian schools across Illinois.** This letter cannot hold the list of similar stories, but we want to encourage you with a sample of them.

We were contacted by **a couple in Atlanta** who intend to start a school using The Foundation for American Christian Education (FACE) and have signed up to attend our Christian Education Summit III in Chesapeake on September 23-24, 2022. Another **group in Asheville, NC,** has a thriving homeschool co-op. Without our knowledge, this group has been following our work and recently contacted us. They have also signed up to attend the CEI summit. Jay Jusino, another CEI member and a former Christian school teacher, has started **Home School Assist near Montgomery,** and his pastor has given permission for him to use his church for a homeschool co-op.

We have been delighted to learn of **numerous local Christian school enterprises.** A former FM board member serves as a board member for a well-established K-8 Christian school in Charleston, SC. The pastor of the church where the school meets has insisted that the board add high school grades, and the school has contacted me for encouragement, as the addition will necessitate finding, not only curriculum and teachers, but also another location, for the new grades. A former Christian schoolteacher and a colleague of Gail's contacted me about starting a Christian school in a community just north of us. He already had researched the FACE materials

and concept when he and his wife came to talk. Also, two large Baptist churches in our community are planning to open Christian schools in their church facilities, and I have closely conferred with one of them. Another Christian school in Columbia which started one year ago, has succeeded in purchasing a wonderful church facility. These are **examples of the calls from around the country** that the ministry has been assisting. Please, read the inspiring article enclosed regarding the bold stand of a Christian school in Florida.

*Pastor Carl Broggi and his wife,  
Audrey*

We are encouraged when **courageous pastors boldly instruct their congregations** on Christian education. One is Dr. Carl Broggi at Community Bible Church in Beaufort, SC. Annually he and his wife hold homeschool seminars for those interested to start homeschooling their children. During COVID their live conference streamed across the globe. (See [communitybiblechurch.us](http://communitybiblechurch.us) and type Intro to Homeschooling Seminar in the search bar.) He is currently preaching a series on the end times from the Scriptures. One sermon stressed the need for Christian parents to protect their children from ungodly influences in government schools, entitled “Lot’s Day and Jesus’s Return.”

I continue to receive regular **requests for interviews on radio, television and podcasts**. Recently *Stand in the Gap* with 550 stations on the American Pastors Network interviewed me and scheduled it to air on its wide-reaching TV network on September 4 and 11. Ray had the opportunity to host Alex Newman’s *The Sentinel Report* on August 22. On August 23, *Priority Talk Show* guest host Thomas Littleton discussed keeping Christian education Christian in a world that wants to separate the two, including a first hour interview with me.

We’re grateful to fill these requests, along with daily calls from parents, pastors and educators who need guidance in Christian education. **Your continued prayers and financial support** enable us to offer the needed help. Please, pray with us as these demands escalate due to the decline of government schools, and please, continue to contribute financially to this vital work as God enables you.

*E. Ray Moore with Dr. James Dobson*

In His grip,

*E. Ray Moore*
